Teachings of swami vivekananda book pdf

Swami Vivekananda

Swami Vivekananda and his brother Sri Nityananda in 1896

India has produced some of the world’s greatest religious leaders, sages, saints, philosophers, and spiritual thinkers. They were monks, nuns, and renunciates, nationalists, and reformers. No one religion had a monopoly on them. They range from Mahavira and Buddha, who lived over 2,500 years ago, to medieval saints like Chishti, Avvaiyar, and Guru Nanak, to more recent philosophers and religious icons such as Vivekananda, Ramakrishna, Saint Teresa, and many others. The spiritual and philosophical heritage they left behind is India’s gift to all Indians and the world. In the ‘Life Lessons’ series we publish the essential teachings of some of India’s best-known spiritual teachers, along with commentaries and biographical notes. Each book will be a handy companion to help the reader along the difficult pathways of life.
* Swami Vivekananda was a nineteenth-century philosopher, monk, and nationalist. Born Narendranath Datta into an aristocratic Bengali Kayastha family of Calcutta, he showed a strong inclination towards spirituality from a young age. Initially influenced by Brahmo Samaji ideas, he later came into contact with Western esotericism. He then became a disciple of the acclaimed mystic Swami Ramakrishna who introduced him to Advaita Vedanta. Vivekananda went on to become a proponent of Vedanta and Yoga, which he famously introduced to the world at the Parliament of the World’s Religions in Chicago in 1893. Vivekananda set up the monastic Ramakrishna Order after the death of his guru. He then left the monastery and led the life of a wandering ascetic, travelling through the subcontinent, filled with the desire to reconcile and assimilate modern scientific processes with ancient Hindu ideals. Also credited with raising interfaith awareness, Swami Vivekananda preached the philosophy of Neo-Vedanta—Advaita—which reconciled the different paths to liberation. He revived Hinduism in India and contributed to nascent nationalistic thought. His view of patriotism was not parochial, thus garnering him universal respect and admiration. An accomplished orator, writer, and poet, as well as a philosopher, his teachings remain just as relevant today as they were when he first thundered his message to his countrymen and the world over a century ago. Edited by Nanditha Krishna, ‘Believe in Yourself’ brings together Swami Vivekananda’s core teachings. Wikipedia biography Swami Vivekananda Swami Vivekananda (1863–1902)[1] was an Indian Hindu monk and a key figure in the introduction of Indian philosophies of Vedanta and Yoga to the western world.[2] He was one of the most influential philosophers and social reformers in his contemporary India and the most successful and influential missionaries of Vedanta to the Western world.[3][4] Indian Nobel laureate poet Rabindranath Tagore's suggested to study the works of Vivekananda to understand India. He also told, in Vivekananda there was nothing negative, but everything positive.[5] In last one century, hundreds of scholarly books have been written on Vivekananda, his works and his philosophy in different languages. Sister Nivedita, who was a disciple and a friend of Vivekananda, wrote two books The Master as I Saw Him and Notes of some wanderings with the Swami Vivekananda. The first one was published in 1910 and the second one was published in 1913.[6] Sister Gargi's lifelong research work, a series of six volumes of books, Swami Vivekananda in the West: New Discoveries was first published in two volumes in 1957. In 1983-87 these series were republished in six volumes.[7] Bengali scholar and critic Sankari Prasad Basu, who was a director of Swami Vivekananda Archives, Ramakrishna Mission Institute of Culture wrote several books on Vivekananda such as Vivekananda o Samakalin Bharatbarsha ((in Bengali) 7 volumes), Sahasya Vivekananda (in Bengali), Bandhu Vivekananda (in Bengali), etc.[8] Monks of Ramakrishna Math and Mission too have written several notable books on the life and works of Vivekananda. Swami Vivekananda and Modern India written by Swami Jagadishwarananda was first published in 1941. In this book the author covered the biography of Vivekananda in brief.[5] Swami Nikhilananda wrote Vivekananda: A Biography which was first published in 1943 from Advaita Ashrama.[9] Yuganayak Vivekananda (in Bengali), written by Swami Gambhirananda was first published in 1966–1967.[7] Books Published in his lifetime[10] Karma Yoga (1896) Raja Yoga (1896) Vedanta Philosophy: An address before the Graduate Philosophical Society (first published 1896) Lectures from Colombo to Almora (1897) Vedanta philosophy: lectures on Jnana Yoga (1902) Title page of Notes of some wanderings with the Swami Vivekananda, with other works in the background Published posthumously Here is a list of selected books of Swami Vivekananda published after his death (1902)[10] Addresses on Bhakti Yoga Bhakti Yoga Complete works.
